4.b. Early and periodic screening, diagnosis, and treatment services: (continued)

> 17b for professional home-based mental health services, and where the child works.

A provider of therapeutic support of foster care must meet the qualifications in items A to E, below:

- Α. the provider must be skilled in the delivery of therapeutic support services to foster families caring for children with severe emotional disturbance. Mental health practitioners must receive 20 hours of continuing training every two years. The topics covered must conform to those listed in State rules governing training for family community support services.
- mental health practitioners cannot have caseload в. sizes of more than eight children.
- if the county board has not done so, the provider C. must provide or assist the child or the child's family in arranging mental health crisis services for the child and the child's foster family which must be available 24 hours per day, seven days a week.
- D. the provider must submit a letter to the Department before providing therapeutic support of foster care services, assuring that the agency with which it contracts has adequate capacity to recruit mental health professionals and practitioners to provide such services.
- the provider must ensure that therapeutic support Ε. of foster care services are given in a manner is consistent with national core values for foster care treatment.

A provider of therapeutic support of foster care services must be capable of providing all of the components specified in items A-C on pages 17b-17c for professional home-based mental health services.

TN: 00-10 Approved:

Supersedes: 00-08

4.b. <u>Early and periodic screening, diagnosis, and treatment services:</u> (continued)

Payment is limited to the above components, plus time spent traveling to and from the site where therapeutic support of foster care services are provided, up to 128 hours of travel per client in any consecutive six month period. These limits apply on a calendar year basis as well. Travel is paid for at the hourly MA rate paid to a case manager for case management services provided in Supplement 1 to this Attachment. Additional travel hours may be approved as medically necessary with prior authorization.

To be eligible for MA payment, a mental health practitioner must receive clinical supervision from a mental health professional. However, a mental health practitioner will be paid if the practitioner maintains a consulting relationship with a mental health professional who accepts full professional responsibility and is present on-site for at least one observation during the first 12 hours in which the mental health practitioner provides the individual, family, or group skills training. Thereafter, the mental health professional must be present on-site for observation as clinically appropriate when the mental health practitioner is providing individual family or group skills training; such observation must be a minimum of one clinical hour during the first 12 hours. The mental health professional must document his or her on-site presence in the child's record.

The services specified in items A through J below are **not** eliqible for MA payment:

therapeutic support of foster care provided to a Α. foster family with a child who at the time of the service has not had a diagnostic assessment to determine if the child has a severe emotional disturbance (or, if between ages 18 and 21, has not had a diagnostic assessment to determine if the person has a serious and persistent mental illness), except that the first 30 hours of therapeutic support of foster care services provided to a foster family with a child who is later assessed and determined to have a severe emotional disturbance (or, if between ages 18 and 21, a serious and persistent mental illness) at the time services began is eligible for MA payment;

## 4.b. <u>Early and periodic screening, diagnosis, and treatment services:</u> (continued)

- B. more than 192 hours of individual, family, or group skills training within any consecutive sixmonth period. The 192-hour limit may not be exceeded during any calendar year unless prior authorization is obtained.
- C. more than a combined total of 48 hours within any consecutive six-month period of individual, family, group, and multiple-family group psychotherapy. The 48-hour limit may not be exceeded during any calendar year, except in the case of an emergency if prior authorization or after-the-fact authorization of the psychotherapy is obtained;
- D. therapeutic support of foster care services that exceed 240 hours in any combination of the psychotherapies and individual, family, or group skills training within any consecutive six-month period. Additional therapeutic support of foster care beyond 240 hours are eligible for MA payment with prior authorization;
- E. psychotherapy provided by a person who is not a mental health professional;
- F. individual, family, or group skills training provided by a person who is not at least qualified as a mental health practitioner and who does not maintain a consulting relationship with a mental health professional who accepts full professional responsibility;
- G. therapeutic support of foster care provided by a county board or provider under contract to a county board, if the county board or provider is not capable of providing all the components noted on page 17g;
- H. therapeutic support of foster care simultaneously provided by more than one mental health professional or mental health practitioner unless prior authorization is obtained;
- I. therapeutic support of foster care to a foster family which duplicate health services funded under medical assistance mental health services; grants authorized according to the Children's Community-Based Mental Health Fund; the Minnesota Family Preservation Act; or the Minnesota Indian Family Preservation Act, except:

4.b. <u>Early and periodic screening, diagnosis, and treatment services:</u> (continued)

- 1. up to 60 hours of day treatment services within a six-month period provided concurrently with therapeutic support of foster care to a child with severe emotional disturbance are eligible for MA payment without prior authorization if the child is:
  - a. being phased out of day treatment services and phased into therapeutic support of foster care; or
  - b. being phased out of therapeutic support of foster care and day treatment services are identified within the goals of the child's individual treatment plan.

Prior authorization may be requested for additional hours of day treatment beyond the 60-hour limit; or

2. if the mental health professional providing the child's therapeutic support of foster care anticipates the child or the child's family will need outpatient psychotherapy services upon completion of the therapeutic support of foster care, then one session of individual psychotherapy per month for the child or one session of family psychotherapy per month for the child's family is eligible for MA payment during the period the child receives therapeutic support of foster care.

For purposes of the child's transition to outpatient psychotherapy, the child may receive two additional psychotherapy visits per six-month episode of therapeutic support of foster care if the mental health professional providing the therapeutic support of foster care works with the provider of outpatient psychotherapy to facilitate the child's transition from therapeutic support of foster care to outpatient psychotherapy services and to coordinate the child's mental health services.

## 4.b. <u>Early and periodic screening, diagnosis, and treatment</u> services: (continued)

J. Services provided to the foster family that are not directed exclusively to the treatment of the recipient.

Page 17u

- 6. Services provided to recipients with severe emotional disturbance residing in a children's residential treatment facility are limited to:
  - A. Intake, treatment planning and support. This includes developing, monitoring and revising the treatment plan, recording the recipient's medical history, providing a basic health screening and referring for health services if necessary, assisting in implementing health regimes, medication administration and monitoring, coordinating home visits when consistent with treatment plan goals, coordinating discharge and referral for aftercare services, and travel and paperwork related to intake, treatment planning and support.
  - B. Psychological examinations, case consultation, individual and group psychotherapy, and counseling. It includes testing necessary to make these assessments.
  - C. Skills development. This means therapeutic activities designed to restore developmentally appropriate functioning in social, recreational, and daily living skills. It includes structured individual and group skills building activities. It also includes observing the recipient at play and in social situations, and performing daily living activities and engaging in onthe-spot intervention and redirection of the recipient's behavior consistent with treatment goals and age-appropriate functioning.
  - D. Family psychotherapy and skills training designed to improve the basic functioning of the recipient and the recipient's family in the activities of daily and community living, and to improve the social functioning of the recipient and the recipient's family in areas important to the recipient's maintaining or reestablishing residency in the community. This includes assessing the recipient's behavior and the family's behavior to the recipient, activities to assist the family in improving its understanding of normal child

4.b. <u>Early and periodic screening, diagnosis, and treatment</u> services:

- Early and periodic screening, diagnosis and treatment service is a service provided to a recipient under age 21 to detect, prevent, and correct physical and mental conditions or illnesses discovered by screening services, and to provide diagnosis and treatment for a condition identified according to 42 CFR 441.50 and according to section 1905(r) of the Social Security Act.
- ◆ Initial and periodic screenings are provided as indicated by the periodicity schedule. Interperiodic screens are available to recipients based on medical necessity. An EPSDT service can be requested by the recipient or performed by a provider at any time if medically necessary.
- Initial face-to-face and written notifications of recipients are followed up by county agencies with telephone contacts, letters, and/or home visits. Annual or periodic written renotifications may also be supplemented by personal contacts.

The following are in excess of Federal requirements:

• Screened recipients receive a written copy of any abnormal screening findings.

The following health care not otherwise covered under the State Plan is covered for children by virtue of the EPSDT provisions of Title XIX:

#### Rehabilitative services as follows:

1. Professional home-based mental health services for children are culturally appropriate, structured programs of intensive mental health services provided to a child who is at risk of out-of-home placement because of the severe emotional disturbance. For purposes of item 4.b., a child eligible for home-based mental health services means a child who meets the functional criteria defined in Supplement 1 of this Attachment for purposes of targeted case management, or a child who has an emotional disturbance and who meets one of the following criteria:

STATE: MINNESOTA ATTACHMENT 3.1-B Effective: July 1, 2000 Page 16a

TN: 00-10 Approved:

Supersedes: 00-08

4.b. <u>Early and periodic screening, diagnosis, and treatment services:</u> (continued)

- A. the child has been admitted within the last three years or is at risk of being admitted to inpatient treatment or residential treatment for an emotional disturbance;
- B. the child is a Minnesota resident and is receiving inpatient treatment or residential treatment for an emotional disturbance through the interstate compact;
- C. the child has one of the following as determined by a mental health professional:
  - 1. psychosis or a clinical depression;
  - risk of harming self or others as a result of an emotional disturbance; or
  - psychopathological symptoms as a result of being a victim of physical or sexual abuse or of psychic trauma within the past year; or
- D. the child, as a result of an emotional disturbance, has significantly impaired home, school or community functioning that has lasted at least one year or that, in the written opinion of a mental health professional, presents substantial risk of lasting at least one year.

The services are for the purposes of resolving an acute episode of emotional disturbance affecting the child, reducing the risk of the child's out-of-home placement, reunifying and reintegrating the child into the child's family after an out-of-home placement. The services are provided primarily in the child's residence but may also be provided in the child's school, the home of a relative of the child, a recreational or leisure setting or the site where the child receives day care.

A child (under age 21) is eligible for home-based mental health services, based on the results of a diagnostic assessment conducted or updated by a mental health professional within the previous 180 days. The diagnostic assessment must have determined that the child meets the functional criteria

> outlined, above, and is in need of home-based mental health services.

The following entities are eligible to provide home-based mental health services:

- A. outpatient hospitals;
- B. community mental health centers;
- C. community mental health clinics;
- D. an entity operated by or under contract to the county to provide home-based mental health services. A contracting entity cannot assign any contractual rights or obligations to a third party who is not an employee of the entity;
- an entity operated by or under contract to a children's mental health collaborative to provide home-based mental health services. A contracting entity cannot assign any contractual rights or obligations to a third party who is not an employee of the entity.

A provider of home-based health services must be capable of providing all of the components specified below. However, a provider is responsible to provide a component only if the component is specified in a child's individual treatment plan. Component A is covered as a mental health service under items 2.a, 5.a., 6.d. and 9 of this Attachment. Components B and C are covered as professional home-based therapy services.

- A. diagnostic assessment;
- B. individual psychotherapy, family psychotherapy, multiple-family group psychotherapy; and
- C. individual, family, or group skills training that is designed to improve the basic functioning of the child and the child's family in the activities of daily and community living, and to improve the social functioning of the child and the child's family in areas important to the

> child's maintaining or re-establishing residency in the community. For purposes of this item, "community" means the child's residence, work, school, or peer group. The individual, family, and group skills training must:

- 1. consist of activities designed to promote skill development of both the child and the child's family in the use of age-appropriate daily living skills, interpersonal and family relationships, and leisure and recreational services:
- 2. consist of activities which will assist the family to improve its understanding of normal child development and to use parenting skills that will help the child achieve the goals outlined in the child's individual treatment plan; and
- 3. promote family preservation and unification, community integration, and reduced use of unnecessary out-of-home placement or institutionalization of eligible children.

To be eligible for MA payment, the provider of homebased mental health services must meet the requirements in items A to F, below.

- the service under component B, above, must be Α. provided by a mental health professional skilled in the delivery of mental health services to children and their families.
- the services under component C, above, must be В. provided by mental health professionals and mental health practitioners who are skilled in the delivery of mental health services to children and their families.
- C. the services must be designed to meet the specific mental health needs of the child according to the child's individual treatment plan that is developed by the provider and that specifies the treatment goals and objectives for the child.

4.b. Early and periodic screening, diagnosis, and treatment services: (continued)

4. Family community support services for children are services provided by mental health professionals or mental health practitioners under the clinical supervision of a mental health professional, designed to help each child to function and remain with their family in the community. For purposes of item 4.b., a child eligible for family community support services means a child under age 18 who has been determined, using a diagnostic assessment, to be a child with severe emotional disturbance (or, if between ages 18 and 21, a person who has been determined to have a serious and persistent mental illness) who meets the functional criteria defined in Supplement 1 of this Attachment for purposes of targeted case management, or a child who meets one of the criteria listed on page 16a, items A-D for professional home-based mental

The diagnostic assessment must have determined that the child meets the functional criteria outlined above and is in need of family community support services.

An entity operated by or under contract to the county to provide family community support services is eligible to provide family community support services. Such entities include, but are not limited to:

outpatient hospitals; Α.

health services.

- В. community mental health centers; and
- C. community mental health clinics.

A provider of family community support services must meet the qualifications in items A to F, below:

- Α. the provider must be able to recruit mental health professionals and practitioners, must have adequate administrative ability to ensure availability of services, and must ensure adequate pre-service and in-service training.
- В. the provider must be skilled in the delivery of mental health services to children with severe emotional disturbance and must be capable of implementing services which address the needs

identified in the child's treatment plan.

- C. the mental health professional involved in a child's care must develop and sign the treatment plan and periodically review the necessity for treatment and the appropriateness of care.
- D. the provider must provide, or assist the child or the child's family in arranging emergency services for the child and the child's family.
- E. if the child has no assigned case manager or refuses case management services (and the county board has not done so), the provider must ensure coordination of the components of family community support services.
- F. if the county board has not done so, the provider must ensure that family community support services are given in a manner consistent with national core values for child adolescent services.

A provider of family community support services must be capable of providing all of the components specified below. Item A is covered as a mental health service under items 2.a., 5.a., 6.d. and 9 of this Attachment.

- A. diagnostic assessment;
- B. individual, family, or group skills training that is designed to improve the basic functioning of the child and the child's family in the activities of daily and community living, and to improve the social functioning of the child and the child's family in areas important to the child's maintaining or reestablishing residency in the community. For purposes of this item, "community" means the child's residence, work, school, or peer group. The individual, family, and group skills training must consist of:
  - 1. activities designed to promote skill development of both the child and the child's family in the use of age-appropriate daily living skills, interpersonal and family relationships, and leisure and recreational
